

# AV Production

Week of October 8

# AV Production – Welcome back!

- Get a sheet of paper out. Think through the route you travel from home to school. On the map, identify the places and areas you may be under security or surveillance. Be specific.
- You have up to five minutes. Be prepared to share.

# Standards and objectives.

- Students will understand the pre production process in filmmaking through taking notes from a video and relating the notes to their experiences from the first grading period and their first project.

## Introduction to the Production Process

- Students will be able to explain the production process including elements and components of each phase of production – including pre production, production and post production.

# Cornell Notes

- Get a sheet of paper out and we will introduce Cornell Notes.
- Then we will watch the following video(s).
- We will actively watch and take notes.
- <https://www.youtube.com/watch?v=TARsoxST0tQ>

# Watch the following:

- <https://www.youtube.com/watch?v=FSuDjjlIPak>
- The making of Star Wars Documentary 1977
