

Match the pairs that are equivalent.

The first match was made for you.

$\sin 40^\circ$ $\sin 11^\circ$ $\sin 53^\circ$ $\sin 30^\circ$ $\cos 30^\circ$
 $\cos 37^\circ$ $\cos 53^\circ$ $\cos 79^\circ$ $\cos 45^\circ$
 $\sin 37^\circ$ $\sin 45^\circ$ $\sin 60^\circ$
 $\sin 79^\circ$ $\cos 60^\circ$
 $\cos 50^\circ$

Which one didn't have a match? _____

In each set of three, which triangle is NOT similar to the others?

How do you know the other two are similar? (AA, SSS, or SAS)
